Usage

Your journals and books on SpringerLink

Get an overview of all content on SpringerLink to which your institution has access.

File format: Based on KBART. Each row represents an active license for one title. If you have access to several ranges of journal issues, each range will have its own row.

SpringerLink journals

SpringerLink books

Your journals on nature.com

Get an overview of all content on Nature.com to which your institution has access.

File format: A comma separated text file. Each row represents an active license for one title. If you have access to several ranges of journal issues, each range will have its own row. Expired licenses are not included, neither is content from trial licenses.

Public metadata

We supply metadata for all our content in various formats. Some ways of accessing them are:

- 
- [The Metadata Downloader](#) for MARC and Excel lists of all our journals and ebooks.
 - [OCLC-MARC records](#) can be obtained from OCLC.
 - [More ways to access MARC records](#) such as via FTP, specific lists for forthcoming titles, etc.
 - [KBART lists](#) of all ebooks and journals.
 - [Springer | BioMed Central API Portal](#) for getting metadata for all journals and ebooks and full text of open access content.

For info on using MARC records, see springernature.com/marc.
